Bachelor of Technology

DOB:15-06-2003 Address: HouseNo. 263, Mughalsarai,UP

📄 LinkedIn Profile

## EDUCATION

### •Bachelor of Technology in Computer Science and Engineering

2020-24

*Axis Institute Of Technology And Management, Kanpur*

CGPA: 7.0

## PERSONAL PROJECTS

### •WEALTH'S SECRET (MODERN MOBILE DEVELOPMENT FRAMEWORK)

*Wealth Secret is a platform that empowers individuals to achieve financial independence and build wealth.*

- Developed a secure trading application using Kotlin (front-end) and Python (back-end), achieving 99.9 uptime and ensuring compliance with industry regulations
- Implemented robust security features with Firebase Authentication, real-time database, and SQLite, safeguarding sensitive user data and enhancing customer trust..
- Leveraged modern mobile development frameworks to deliver a high-performance, scalable app, optimizing user experience and operational efficiency. .

### •React Native Video Player App

*Built a cross-platform Video Player App using React Native with features like play, pause, resume, and saved playback position.*

- Developed a custom Video Player App using React Native, enabling users to play, pause, and resume videos with a clean and responsive UI optimized.
- Implemented advanced features such as playback position saving, full-screen mode, and media controls using React hooks and Expo's Video API to enhance user experience.
- Utilized modular component architecture and local storage integration, improving app performance and maintainability while ensuring smooth video playback and user state retention.

### •Full-Stack Authentication App

*A mobile app with secure login, signup, and OTP verification system.*

- Developed a full-stack mobile authentication system with React Native (frontend) and Next.js (backend), featuring sign-up, login, and OTP verification screens.
- Integrated real-time OTP validation and pop-up notifications, ensuring user-friendly feedback for successful and failed login attempts.
- Implemented secure user data handling by connecting the app to a MySQL database for storing and validating user credentials efficiently.

## EXPERIENCE

### •Project Manager IT

March- Present

*Design Source*

On-Site

- Created detailed project timelines, Gantt charts, and critical path plans using Microsoft Project.
- Automated data collection processes using Excel (advanced formulas) and integrated with ERP systems.
- Collaborated with cross-functional teams (production, procurement, planning, QA) to standardize and streamline reporting formats.
- Trained staff on MIS tools and conducted troubleshooting for data/reporting issues.

## TECHNICAL SKILLS AND INTERESTS

**Languages:** HTML,CSS, JavaScript, React, React-Native,MySQL.

**Web Dev Tools:** Terminal, VScode, Git, Github, Database, SQL, Android Studio.

**Relevant Coursework:** Advance Machine Learning, C/C++, Enhancing Soft Skills and Personality by NPTEL

**Areas of Interest:** App designing and development, Testing

**Soft Skills:** Problem Solving, Self-learning, Presentation, Adaptability, Self compose Poetry

## ACHIEVEMENTS

### •Published a Research Paper IJSREM

March - June 2024

### •Many Anthologies written in Hindi Zindagi ek zung, Integrated thoughts

Oct - Dec 2022

### •Organised many cultural events DevFest, GDG Kanpur

Jan - Dec 2022
